

## FOR ENGLISH SPEAKING DRIVERS

Welcome to the briefing of the Italian TCR ACI ESport 2023 championship

The Race Direction will not intervene directly during the competition.

The code of driving is in agreement to the Code Fia and the ACI Sport National Sporting Regulation and the Sim Racing Sector Regulation. So we recommend everyone the utmost fairness.

The main recommendation we make is the one on the rules of engagement when overtaking. The important thing is that you bear in mind that overtaking is to be considered correct when the cars are completely side by side in the braking area or in any case there is an important portion of the car side by side in the braking area.

As far as the use of the track limits is concerned, we recommend maximum correctness. In the impossibility of verifying the correct use of the track for all drivers.

After the race, we will evaluate the protest concerning exits from the edge of the track, but only if these concern an immediate advantage in overtaking or in overtaking defence.

Protest must be sent to the Race Direction within 24 hours of the event.

Any notices of appeal required by the sports justice regulation must be sent within 24 hours of publication of the decisions.
